Guide to the Interpretation of Course Evaluations at UT Austin

The goal of course evaluation process at UT Austin is to drive teaching excellence and to support continuous improvement in teaching and learning experiences. The two sets of scales used for core evaluation questions and the associated weights are:

Strongly Agree (5)
Agree (4)
Neutral (3)
Disagree (2)
Strongly Disagree (1)

Excellent (5)
Very Good (4)
Satisfactory (3)
Unsatisfactory (2)
Very Unsatisfactory (1)

The Mean is calculated by adding all of the weights for a single question and dividing by the number of respondents. The course workload question is not averaged.

The number of students (e.g. respondents) marking each option is reported for each of the items. These frequency distributions provide information about the level of student ratings and the spread and shape of the class distribution of responses. The distributions thus provide a picture of student perception of a course.

Course evaluations provide snapshots of student perspectives on their course-level learning experiences. Most experts on teaching evaluation advise that no individual method gives the complete picture of an instructor's teaching effectiveness; multiple and diverse measures, on multiple occasions, are advised to give a full picture of the teaching effectiveness of a particular instructor. Moreover, other factors, such as size of class, level of the class, and content of the course, can cause small variations in the ratings. Therefore, student perspectives for a particular instructor or course should be interpreted as a snapshot, and not as providing complete information on the teaching effectiveness of that instructor.

Comment Questions

Identify aspects of your interactions with your teaching assistant that were most effective in helping your learning.

Comments
N/A
Helped with doubts
Suryansh was great and every time I met him in his office hours, he would follow up with a message on canvas with further explanation of my questions.
I did not have many interactions with the TA.
N/A
I can't really think of anything.
never met
Never interacted with the TA
They were very nice and approachable.
Always was available for office hours and was a huge help with comments on our problem sets.

What is one thing the teaching assistant could do differently to help improve future students' learning in this course?

Suryansh is already doing a great job.
As previously mentioned, I did not feel a need to meet with the TA, so we have had limited interaction.
N/A
nothing, this was a great ta
never met
Never interacted with the TA
They could maybe give a review session.
Honestly nothing, great TA!
